A few notes regarding the above table:

1. When using both products together, you must choose a platform combination that aligns to each individual product's supported platform.
 - a. Action Vector's individual platform support list can be found at http://downloads.actian.com/media/PDFs/Product_Avail_Matrix_Vector.pdf
 - b. DataFlow's individual platform support list can be found at http://downloads.actian.com/media/PDFs/Product_Avail_Matrix_DataFlow.pdf
2. The DataFlow client and the cluster manager versions must be identical
